

Neil Moretto

Lenrex Seafood Marketers are Australian and locally owned and have been operating since 1985.

Our family has been in the seafood industry, processing and marketing since 1967, starting with founder and my Grandfather Walter Richardson.

Lenrex Seafood Marketers is proud of its long term alliances with the fishing industry's most highly regarded professional fishermen and provide marketing experience to a large number of Gulf fishing families.

Today we market all product fresh frozen at sea, that includes Wild Gulf Barramundi fillets, Threadfin, Mackerel and other related products to name a few.

I am honoured to fly the flag for quality local seafood in this country, and to make it a part of everyday life for all Australians.
